Dear Mr. Townsend:

This is in response to your request of 5 August 1957 for a brief statement concerning the progress of our new building.

Our plans are moving along quite satisfactorily. We are hopeful that the final working drawings will be submitted to the Public Buildings Service for review early in the Spring and that the construction may begin during July 1958. Meanwhile, the Public Buildings Service is planning to advertise specifications for preliminary site clearance within the next several days, hoping to enter a contract for this work during September 1957. When this work is completed, we plan to enter a second contract to accomplish rough grading for the site roads and parking areas in order that the property will be ready for construction to begin next Summer. If we are able to maintain the construction schedule, our building should be ready for occupancy late in 1960 or early in 1961.

Sincerely,

L. E. White
