MEMORANDUM FOR THE CHIEF OF LOGISTICS

SUBJECT: Commendation of the Reproduction Division

We would like to commend the Reproduction Division generally for their cooperation and particularly for its work on Special National Intelligence Estimate No. 11-7-54.

During the week of 9-13 August they produced, on very short notice, printed drafts of seven different maps. The IAC made changes in all of these maps at its meeting on 17 August, with the result that all seven maps had to be reprinted, once again on very short notice; at the same time, of course, they printed the rather extensive text of which the maps were a part.

SNIE 11-7-54 was originally requested by a committee working for the National Security Council. It had a very high priority and was produced under great pressure. The willingness of the Reproduction Division to put in long overtime hours, in order to meet its deadlines, is greatly appreciated.
