MEMORANDUM FOR:

Chief, Reproduction Division  
Logistics Office

During the past couple of months the work on the final phases of the Budget for the FY 1955 placed heavy demands on this and other offices. However, the successful completion of the Budget by the final deadline together with all of the related support material was made possible in large measure to the fine cooperation we had from your office.

I wish to express the thanks of the entire Budget Division to you and your staff for the effective work you did in running off the many duplimats and the offset printing which you did. Of particular moment were the five color charts which were printed for us. These were used very successfully and added materially in the preparatory budget discussions this year. The prompt completion of our many requests was a real assist to us in making a presentation of the budget and the related budget material to the Director and the House Appropriations Committee effective.

Chief, Budget Division
