Memo for: SSA to the DD/S

Subj: Liquidation Authority in Connection with Projects

1. The GC has raised with me recently the problem of liquidation authority in connection with projects. The point is that in many cases the decision to liquidate, methods, procedures, etc, are as important as the original project approval.

2. I would appreciate it very much if you would make a study of the situation and submit your recommendations at an early date. It would seem that in addition to the GC, the Compt, and the Commercial Staff, among others, would have primary interest in this matter.
