

~~SECRET~~

DRAFT

FOREIGN RESIDENCE AGREEMENT

I am aware that my presence in a country in which I had served theretofore on assignment with (or in support of) the Clandestine Services could constitute a factor of security or operational significance. I understand therefore that in the event that my employment or other association with the Agency terminates, the Agency may request me not to return, within two years from the date of such termination, to any country in which I have served with the Clandestine Services within two years prior to termination. Or, in lieu of requesting me to refrain from returning to such country, the Agency may request me to refrain from certain activities or from making certain contacts or may otherwise limit its approval of my returning to such country. Accordingly, I hereby agree that if, at any time, I have the intention to return to such country within two years following termination, I will notify the Agency, in writing, of such intention, and I further agree to abide by any request from the Agency under this Agreement. I am assured that the Agency intends not to make any request under this Agreement, except when necessary in the interests of the United States.
