THE SECRETARY OF HEALTH, EDUCATION, AND WELFARE  
WASHINGTON

Dear Mr. Dulles:

To assist the Commissioner of Education in discharging his responsibilities under the National Defense Education Act of 1958, the American Council of Learned Societies has undertaken a survey of foreign language needs and training facilities of the Federal Government. I am enclosing a letter from Dr. Frederick Burkhardt, President, American Council of Learned Societies, which outlines the purposes of the survey, and a questionnaire designed to secure basic information about the foreign language needs and resources of the Government.

I understand that there may be reasons why you would be unable to release information about your agency in as much detail as is requested on the enclosed form. But I am wondering whether you could supply information that would permit the American Council of Learned Societies to take into account the important requirements of your agency in the coming years.

I will appreciate your cooperation in this matter. Perhaps you could inform Dr. Twaddellof a staff member with whom he or his staff can consult regarding this important problem.

Sincerely yours,

(Signed) ARTHUR S. FLEMMING

Secretary

Honorable Allen W. Dulles  
Director  
Central Intelligence Agency  
Washington 25, D. C.
