26 February 1953

MEMORANDUM

TO : Assistant Deputy Director, Administration (I&S)

FROM :

SUBJECT : Security Inspection Survey

REFERENCES: (1) Memo dated 22 Dec. 1952 to DD/A from ADDA(I&S), same subject, w/report of survey. Cpy (2) Memo dated 26 January 1953 from to ADDA(I&S).

25X1A6a

25X1A

1. The original report dated 26 January 1953 on the Security Inspection Survey made at the outlined the action taken on recommendations at that time. This is a supplementary report, advising the action taken on the recommendations during the past month.

a. The information concerning ownership and occupancy of properties adjacent to is being completed but is not in sufficient detail to forward at this time. This survey should be completed in a few days and will be forwarded.

b. The Security Officer has received the necessary clearances for admittance to all restricted areas.

c. In accordance with the recommendation that be provided with the necessary photographic and laminating equipment to permit the making of badges, contact was made with of your office who advised that he anticipates the receipt of new equipment and that we may be able to obtain the equipment now used. Positive advice on this subject from will not be received for approximately two weeks.

d. All fences at both have been made secure in accordance with recommendations made by .

e. It was the opinion of the Security Officer and the Engineer at this Station that a lock for the cover over the elevator shaft could be designed so that it would operate automatically in conjunction with the movement of the elevator itself. The manufacturer was contacted and a locking device of this kind is not available. Our Engineer is at present trying to devise a lock that will fit this purpose. In the interim a bar has been placed on the door between the elevator shaft and the vault. This will provide ample protection until the additional feature can be installed.

f. The air vents in the room at [REDACTED] 25X1A6a  
[REDACTED] have been covered with wire mesh as recommended by the Security Survey.

g. The findings of the Assistant Director of Communications with regard to a automatic alarm system for the tower have not been received to date. Additional guards have not been assigned to the tower area and the same method of protection afforded by the guards is still operative.

h. The securing of the fence surrounding the chlorination station has been effected.

2. The few recommendations which have not been placed in effect will be completed in the very near future. Therefore, a second supplementary report does not appear necessary.

3. I again wish to thank you for the assistance your people rendered in making [REDACTED] more secure and all employees more security conscious.
