8 November 1954

MEMORANDUM

TO : Deputy Director / Administration

FROM :

25X1A6d

SUBJECT : Additional Housing Facilities

25X1A9a

1. and other officials have often advised me that they were of the opinion that there was not sufficient housing available in the barracks for a representative working staff during an emergency program. It is my belief that the number of people authorized at the time of the establishment of the emergency program was considered sufficient; however, full review at the present time would require more people to do the basic job. This would require an increase in housing facilities.

2. I thought it well to mention these facts to you, for at this time the several buildings of a former are available for purchase. The located equidistant from , formerly housing approximately 200 students and had the necessary office building, living quarters, dining room, gymnasium, etc. It is my understanding that the corporation operating this school is now in receivership and that the property could be purchased for approximately \$150,000.00. If a firm offer were made I presume it could be purchased at a lower figure. At the present time I understand there is some interest in the property by several Church groups, but nothing definite has been accomplished.

3. The purchase of the above may be contrary to present Headquarters policy, but I thought it my duty to apprise you of this opportunity.
