Minutes of the Tenth Meeting

of the

Support Action Panel

28 January 1966
1500 Hours, 2D03 Headquarters Building

1. Those present were:

25X1A

Secretary

2. The minutes of the Seventh and Eighth meetings of the Support Action Panel were reviewed. It was noted that the recommendations for incumbency of the Chief of Support, [redacted] position had been overtaken by events and that in all probability further recommendations regarding incumbency of the position would be of concern to the Support Career Board. It was also noted that the proposal that [redacted] (SP), GS-13 be considered for a new requirement as Deputy Chief of [redacted] had been cancelled. [redacted] will probably require a GS-13/14 general Support Officer in late spring. In connection with staffing assignments, it was recommended, once field assignments were approved by the DD/S, that the Support Chief of the component concerned would secure component and station (where appropriate) concurrence in the assignment, but that the Support Career Service would notify individuals concerning their next assignment.
