Office Memorandum • UNITED STATES GOVERNMENT

TO : Director of Training

DATE: 13 May 1960

25X1A6b

FROM : [REDACTED]

SUBJECT: Weekly Activities Report #20 for Period 12 - 18 May 1960

1. I have instructed [REDACTED] to revise his description of the "two-day" package to emphasize "countermeasures." I have told him that he should explain the need for the inclusion of positive audio operational information in the introduction. This can be done by emphasizing the fact that 90% of finds have been through visual, physical search; therefore, it follows that the more you know of the mentality and modus operandi of the positive operator, the more likely the finding of the plants. If we create a real awareness of the audio threat, we will have presented a successful package.

2. The photo lab will be open from 1800 to 2100 hours in order that those who feel the need to brush up may do so. This is a facility which should be as accessible as the language lab, and its availability should assure a greater competency in JOT graduates, provided they make use of it.

3. In the area of centralization of [REDACTED] activities, Col. [REDACTED] and I are still studying the question of a Central Registry.

25X1A9a

Time has not permitted us to get together for a long enough period to decide on the centralization of other activities, e.g.,

- a. Assignment of housing
- b. Vehicle assignment and Dispatching
- c. Preparation of orders and travel on the courier.

Actually, we are more in a stage of "feeling out" the problems involved.

[REDACTED] I noted, too, that both you and C/OS have no objections. Naturally, as you have no objection, that is all there is to it, but I do want to remind you of some of the problems [REDACTED] pose:
