2. Briefing for DDO. On 23 January 1974, [REDACTED] Chief of Operations, OC, gave a briefing at the DDO's Staff Meeting on SKYLINK and long range plans for automation of field terminals. The DDO pressed quite hard for specific dates for automating field terminals which are not firmly established at this point in time. They expressed a strong desire to have maximum automation of clerical functions as well as communications functions in the field. They were not completely satisfied with the CAFT concept as they desire a "paperless" system.
