MINUTES
Research, Development and Production Review Board

- I. Meeting #56 of the Research, Development and Production Review Board was held in the OC Conference Room at 1430 hours on 2 May 1956. The following persons were in attendance:

This meeting was continued at 1330 hours on 3 May 1956 in Room 2413 "I" Building. The following persons were in attendance:

- II. Under Agenda Item 1, Old Business:

The Minutes of Meeting #55 and the special meeting of 19 April 1956 were approved, and it was noted that [redacted] name was inadvertently omitted from the list of those attending Meeting #55, and attending the special meeting on 19 April 1956.

25X1A

- III. Under Agenda Item II, New Business:

1. Report was made to the Board of the current projects at the Research and Development Laboratory.

2. The Operations and Training Division reported as follows:

a. That a decision had been made to permit the Laboratory to construct five AR-2 units for operation from 6 volt source and a balance of units to be AR-3 type with a 12 voltage primary power source. In the future any additional AR-3's will utilize 12 volts as a power source.

b. A survey had been made to determine how many base station units were available in Commo stock. It was determined that there was one unit in [redacted] and one unit in the Laboratory.

25X1A

c. The Operations & Training Division is continuing its evaluation of the CV-1 transistorized converter. It had been determined that the present units would not operate satisfactorily with an AC-DC type of receiver, but this was not considered to be a serious problem since this type of unit does not generally exist in foreign areas.

25X1A

d. Operational tests are being run jointly by O&T and Engineering on the [redacted] single side band equipment (SSB-1).

e. The project assigned by the Research and Development Board to O&T for a determination as to present and future [redacted] equipment requirements was still under study.

25X1C

25X1A

f. Training of Operations personnel for activating of a [redacted] was in progress.

25X1C

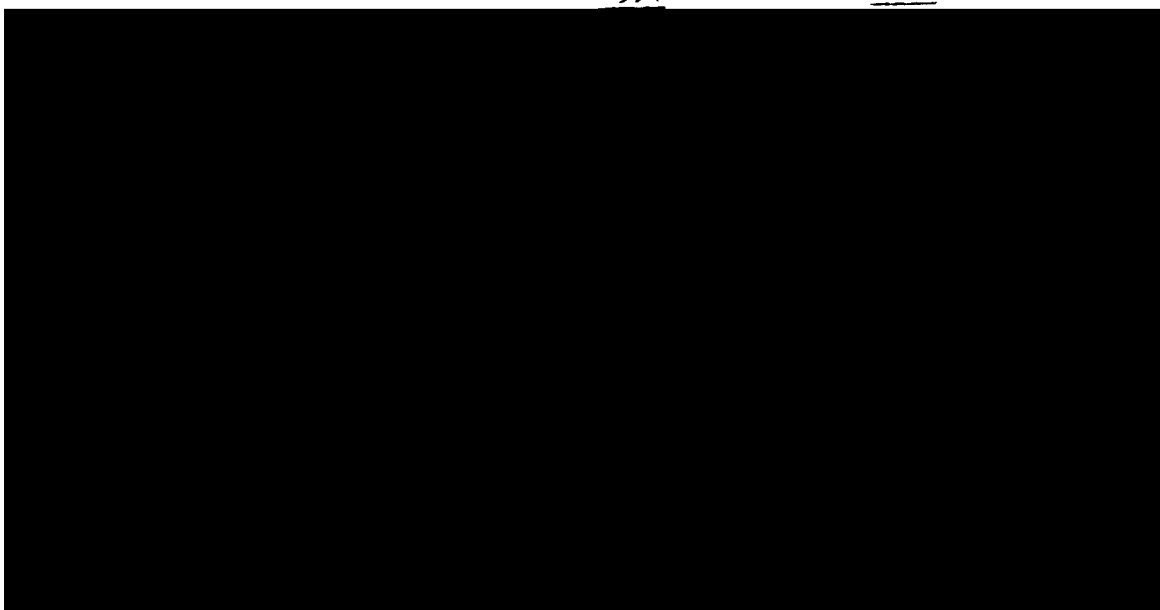

3. Discussion of budgeting for development of items that may go into production during Fiscal Years 1957 and 1958. The following recommendations were agreed to by the Board:
