Office Memorandum • UNITED STATES GOVERNMENT

TO : Comptroller

DATE: 12 August 1954

FROM : Chief, Technical Accounting Staff

SUBJECT: Review by Office of the Comptroller of Financial Activities within Special Stock Account No. 2

REF : Financial Statement, Special Stock Account No. 2, 1 June through 30 June 1954

1. You will recall that we discussed previously the reference financial statement as of 30 June 1954, particularly from the

25X1A

that the financial statements do not indicate the extent to which contractual commitments exist in connection with the operations of the Special Stock Account.

2. It may be desirable for this Office to suggest that an interim review be made of the present financial position of the Special Stock Account No. 2 operation by a representative of the Office of the Comptroller in collaboration with a representative of the Logistics Office. If excessive funds are available in the project account, steps should be taken to return them promptly to the Agency.

1st Ind.

TO: Chief, Technical Accounting Staff

It is my desire that a review be made of the Special Stock Account No. 2 as soon as possible. It appears most appropriate that a member of your Staff make the review. Please advise when same has been accomplished.
