h. The tenth running of the Cable Refresher course for headquarters personnel had 66 students in attendance from 0900 to 1300 hours on 27 March. Seventy-five students were registered. The course consisted of three lectures: "Prescribed Practices," given by [redacted] instructor, Intelligence School; "Technical Considerations," given by [redacted] chief, Signal Center; and "Organization and Communication of Content," [redacted] chief instructor of reports training, Operations School. The talks seemed to get across to the students. The only noticeable weakness in them was a certain amount of repetition that in future runnings can be eliminated by better dovetailing.
