B. OTHER ACTIVITIES

25X1A

1. [ ] attended a demonstration at the Defense Language Institute, East Coast of a Russian stenotype machine developed by ASA and being taught now at DLI (WC) in conjunction with the regular Russian-language course.

2. Two classes in Vietnamese were started this STATSPEC week: a part-time course for one man [ ] and a full-time course for a CT who is being transferred to DDP/FE.

3. Arlington Towers police have asked us to cancel all student parking permits by 6 December and to discontinue issuing new ones except to the faculty. This action was caused by their loss of 3 parking lots. FSI and MAI have lost their student parking privileges and it is logical that we lose ours. We only hope that no further cuts in parking will be made.

4. Special out-of-hours classes for WE and FE are now in progress in French and Japanese. An Italian class will begin 7 December, and plans are in progress for additional groups after the first of January.
