I know you are all very busy but it would be a great help to Professor [redacted] and me if you would take time to provide me with your views on the following:

25X1A5a1

1. Progress made in your historical program up-to-date
2. How it could have been better planned and executed
3. What problems you have encountered
4. How do your programs mesh with those of the other Directorates, especially DDP. Is there sufficient coordination or should there be more in the future.
5. When you believe that your present program can be completed
6. Your suggestions as to projecting the program into the future on a continuing basis. This should include your ideas in regard to the limited use of annuitants.
7. Any suggestions you would like to make in regard to programming, writing, retirement and retrieval of documents, etc.
8. What uses do you foresee for your finished papers.

As Professor [redacted] and I are interested in the future of the programs your thoughts would be most helpful. I appreciate the fact that answers to some of the questions have already been provided in your quarterly report.
