PREFACE

This Mission Coverage Index (MCI) furnishes a compilation of intelligence targets covered by this mission. Items in the compilation are arranged in three sections:

Section I provides summary information for a) newly identified targets, b) previously reported targets which show a change, and c) all targets showing order of battle information.

Section II provides a listing of those targets which reflect no change in facilities from previous target description. The mission number shown on the photo reference line (e.g., NAC 9000) refers to the MCI which contains the most adequate description of that target. Military installations where no order of battle can be determined are listed under this section.

Section III provides a listing of those targets which could be identified but not interpreted.

All three sections are arranged 1) by country, 2) within a country by subject, 3) within a subject by WAC area, and 4) within a WAC area by coordinates reading from south to north and from west to east. The map base used (when available) for the derivation of coordinates in this report is the latest edition of the US Air Target Chart, Series 200.

NPIC/R-241/63

For the convenience of the user, a subject index to all targets has been included following Section III. Targets in the subject index are listed 1) by category, 2) by country within each category, and 3) alphabetically by place name within each country. An explanation of column headings and photo reference data used in presenting the information is contained in the appendix.

The user of this MCI is cautioned that the scan of photography was accomplished in a relatively short time and often without the aid of precise analytical and mensural techniques commonly employed in detailed photographic analysis. Consequently, although the information presented herein is essentially accurate, additional, detailed analysis may somewhat alter portions of the information.

MISSION HIGHLIGHTS

25X6

Mission 9057, accomplished between 19-22 July 1963, provided 28 operational passes over the USSR, Bulgaria, China, Egypt, [redacted] Mongolia, Poland, Rumania, Saudi Arabia, Syria, and Tibet.

Cloud cover on Mission 9057 was approximately 57 percent.

Missile activity newly identified on Mission 9057 includes:

<i>ICBM*</i>	
LOCATION	LAUNCH SITE TYPE
Gladkaya	One Type II
Drovyanaya	One Prob Type III A
Itatka	One new launch area

<i>IRBM/MRBM</i>	
LOCATION	LAUNCH SITE TYPE
Kara-Babau	One hard IRBM
Lajasciems	One hard MRBM
Kozhanovichi	One confirmed as Type I
Karakhobda	One hard IRBM
Petrovskiy	One hard IRBM
Bereza	One Type III IRBM

<i>SAM</i>				
SA-1	SA-2	SA-3	SA-0	SUPPORT
0	38	5	3	8

*Where types of deployed ICBM launch site configurations have been specified in this report, the current terminology employed by GMAIC (Guided Missiles and Astronautics Intelligence Committee) has been used. Differences between the GMAIC terminology and the former terminology used in NPIC reports are as follows:

<u>CURRENT</u>	<u>FORMER</u>
I	I
II A	II A
II B	II B
II C	IV
II D	II C
III A	III
III B	V

MISSION HIGHLIGHTS (Continued)

Order of Battle Information of special interest reported on Mission 9057 is as follows:

<i>AIRCRAFT</i>		<i>SUBMARINES</i>			
LOCATION	TYPE	LOCATION	FIRM	PROBABLE	POSSIBLE
Baranovichi Airfield	6 Blinder	Kronshtadt	8	1	1
Donuzlav Lake	25 Mallow	Balaklava	5		
		Vladimir	1		
		Petropavlovskiy/ Kamchatskiy	2		3
		Sevastopol	4		
		[REDACTED]			

25X6

In addition to the above listing, one probable cruise-missile site was identified at Sevastopol, and one possible missile-associated facility was identified at Kotly Airfield.

SECTION II

THIS SECTION PROVIDES A LISTING OF THOSE TARGETS WHICH REFLECT NO CHANGE IN FACILITIES FROM PREVIOUS TARGET DESCRIPTION. THE MISSION NUMBER SHOWN ON THE PHOTO REFERENCE LINE (E.G., NAC 9000) REFERS TO THE MCI WHICH CONTAINS THE MOST ADEQUATE DESCRIPTION OF THAT TARGET. MILITARY INSTALLATIONS WHERE NO ORDER OF BATTLE CAN BE DETERMINED ARE LISTED UNDER THIS SECTION.

APPENDIX
EXPLANATION OF COLUMN HEADINGS
AND PHOTO REFERENCES

City, Installation -- This column contains the name of the city or town nearest the installation, followed by the name of the installation. If the name of the installation is not known, it is titled according to its function. The city and installation names are followed by a capsule description, where appropriate.

Coordinates -- Coordinates are referenced to the SW corner of the minute square. When the subject installation covers a wide area, coordinates are given for the approximate center of the installation.

WAC -- This column provides the World Aeronautical Chart number for the area in which the subject installation lies.

Installation Numbers -- The Installation Numbers column is divided into two subcolumns. The first subcolumn lists, when known, the BE installation number assigned to the target. The second subcolumn lists the installation number assigned by NPIC. Installation numbers, when used to reference an item, should be prefixed by the appropriate WAC number, since installation numbers are repeated from WAC to WAC. For example, there is an NPIC target number 0235-1 and an NPIC target number 0236-1. In each instance, the NPIC installation number is 1, but the installations appear on different WACs.
