MILITARY INSTALLATIONS, SWIDNICA, POLAND

This report is a partial answer to DIA requirement DIA-AP1-63-88, to verify or pinpoint the location of Soviet military garrisons in Poland and to perform a photo analysis to determine boundaries of the installations, to determine function, number and dimensions of buildings, to estimate troop capacity, and to identify and describe related training areas and facilities and ammunition or POL storage.

[redacted] photography of [redacted] [redacted] was used to compile this report. However, the marginal quality and small scale of the available photography reduces the accuracy of the building count and dimension figures. No [redacted] coverage was used due to extremely poor quality. All dimensions of multistory buildings are based on a minimum of two stories. The installations described below are shown in Figure 1.

Swidnica Military Barracks Nos 3 and 7
