 NPIC Project J-363/63 (partial answer) (C-RR3-80,595; Supplement 1)

Chernyakhovsk SAM Site B21-3 is located 19 nm SSW of Chernyakhovsk, USSR, in flat, open terrain. It is adjacent to Chernyakhovsk SAM Site B21-2. This SA-3 site was first identified on KEYHOLE photography of [REDACTED], on which it appears in a late stage of construction.

of approximately [REDACTED]. Distances between launch pads are 180 and 185 feet.

25X1D

The site first appeared on the photography of [REDACTED]. Its presence can be negated on [REDACTED] photography. 1/ The site was cloud covered on KEYHOLE coverage between these dates. 2-4/

25X1D  
25X1D

The only discernible components of the site are four revetted launch pads arranged in a trapezoidal pattern, and a central guidance area (Figure 1). No equipment is in evidence. A definite site configuration is undeterminable because no well defined internal road pattern is present. The site is oriented on an azimuth
