PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1A
25X1A

This military training area associated with the Shepetovka Army Barracks Slavuta [redacted] and located immediately east of Slavuta, 19 kilometers (km) northwest of Shepetovka, covers approximately 1,000 acres and contains a tracked-vehicle driver training course, two wheeled-vehicle driver training courses, two small-arms ranges, four probable flat-trajectory firing ranges, and a moving target tank firing range.

It is served by secondary roads from the Shepetovka-Rovno highway and the adjacent

barracks area, which is also served by a spur from the Berdichev-Rovno rail line.

A comparative study of the photography covering this area from [redacted] through [redacted] reveals no major change except for the addition of a probable small-arms range in [redacted] and a probable wheeled-vehicle driver-training course in [redacted]. The area appears active during the summer and fall months. No activity was observed on winter coverage of [redacted]

DESCRIPTION OF INSTALLATION

Railroad Service

Rail service is probably available at Shepetovka Army Barracks Slavuta, which is served by a spur from the Berdichev-Rovno rail line.

Road Service

The training area is served by secondary roads from the Shepetovka-Rovno highway and the barracks area.

Administrative and Troop Housing Area

Shepetovka Army Barracks Slavuta is located adjacent to the western portion of the training area.

General Storage Area

All logistical support for the training area is probably located at Shepetovka Army Barracks Slavuta.

Small Arms Firing Ranges

Area L1 is a 350- by 100-foot small-arms range, first observed in [redacted]

Area L2 is a 350- by 100-foot probable small-arms range, first observed in [redacted]

Driver Training Areas

Area M1 is a tracked, irregular-shaped, heavily scarred closed circuit course, first observed in [redacted]

Area M2 is a wheeled-vehicle driver-training area containing two figure-8 closed circuit courses, first observed in [redacted] 25X1D

Area M3 is a probable wheeled-vehicle driver training area containing one probable figure-8 closed circuit course, first observed in [redacted] 25X1D

Tank/Assault-Gun Firing Range

Area N is a two-lane 4,500- by 2,600-foot tank/assault-gun firing range with 3 moving targets, one at 90 degrees, two at 10 degrees and one at 80 degrees, and was first observed in [redacted] 25X1D

Flat Trajectory Firing Ranges

Area P1 is a 1,500-foot range with three probable moving 60-degree targets; area P2 is a 1,500-foot range with one probable moving 60-degree target; area P3 is a 2,100-foot range with two probable moving 60-degree targets and an impact area 1,000 feet from the firing line; and area P4 is a 2,100-foot impact area.
