25X1	(item 7) has been added near the entrance road to the triad and is within the secured area.
25X1	LAUNCH AREA
25X1D	No apparent change in the launch area

GUIDANCE AREA

No apparent change in the guidance area can be observed.

SUPPORT AREA

Numerous additions at and near the support area are noted, due to better image quality. These include eight new buildings, a stack or 25X1D mast, and a stack or standpipe, all added 25X1 and eight other buildings and an area of minor activity, newly observed but all 25X1D probably present The eight buildings added 25X1D (items 8-15) are in and near an area of new construction. Four parallel and offset buildings (items 8-11), with dimensions of 145 by 35 feet, one building 195 by 40 feet (item 12), and two smaller buildings (items 13 and 14) are within the new area; the eighth building (item 15) is
