On 19 November 1965 the previous technical monitor of the above contract contacted the [REDACTED] by phone and discussed the termination of the Electrocolor rental contract. A memorandum dated 19 November describing this discussion was issued. It was not until 14 December 1965 that the Electrocolor Printer-Processor could be removed from [REDACTED] to be returned to the [REDACTED]. This time delay was necessary in order to arrange for the GSA plumbers and electricians to disconnect the plumbing and electrical services from the machine.
