Ref: 405A-OD-132

15 March 1965

Subject: Modification of the 405A Machine to the 405B Configuration

Gentlemen,

In accordance with your request [redacted] submits this quotation for modification of the 405A Machine which is presently located at the customer's facility. After careful review of the problem, [redacted] feels that it is impractical to attempt to modify the machine at the customer's facility. Therefore, this quotation is for a modification to take place at [redacted]

25X1A

25X1A

25X1A

The equipment, as modified, will have all the capabilities of the 405B configuration and the task to be accomplished includes the following items to be changed:

Tasks I, II, III and IV, as defined by our letter of 23 July 1964 identified by reference #405B-OD-105; Tasks VI, VII and VIII, as defined by our letter of 27 August 1964 identified by reference #405B-OD-107; and modification to install motor drives.

Because of the major breakdown of the machine and the installation of a new microscope and mounts, it is necessary to realign the entire machine at the completion of the modification. The firm fixed price quotation for this modification is [redacted] and shall remain valid for 60 days from this date. This includes the task necessary to have [redacted] personnel reinstall the machine at the customer's facility. It does not, however, include the cost of shipping the equipment to [redacted] or returning it to the customer's facility, since this equipment is owned by the customer, it is felt that it can best be accomplished on the customer's bill of lading.
