Dear Ray: STATOTHR

At the present time our records show that the following persons have been cleared for installation and service of the E-80 plotter at your facility:

Co. Position

President

Vice President

Sr. Engineer

Sr. Engineer

Staff Engineer

Staff Engineer

Machinist

, whose names were previously submitted to you, are no longer in our employ. STATOTHR

 have already been utilized, and I'm sure have done their usual good job. During the upcoming electrical and performance checkouts of the system we expect to call on others on the above list. To place ourselves in a position to prove out the system rapidly during the remainder of the installation and to respond quickly to any future service calls, I should like to request clearance for the following two individuals.

STATOTHR  
Name

Birth

Address

Co. Position

Staff Engineer

Project Technician

STATOTHR

 has had extensive experience in all our systems and is called upon frequently for field service.

 has been the service technician assigned to your system during construction and checkout and would be needed if any wiring modifications would ever be required.

STATOTHR

STATOTHR  
Very truly yours,

Vice President
