

2 Sept 64

Memo for self -

STATOTHR

1. [redacted] cable lengths for computer-plotter hook-up comes in standard lengths of 50' & 75'. The distance from power console to plotter is just 75'. [redacted] recommends we order

STATOTHR

an 80' cable to be sure of length. Talked to [redacted] regarding laying the cable on the ceiling rather than following the cable trough installed. This, if followed thru the trough, would require about 120' of cable rather than 80'. [redacted] said

STATOTHR

STATOTHR

OK to run right on ceiling & not follow the trough. So [redacted] will order an 80' cable from [redacted] have them tie into power unit so that by 1 Dec we will be ready to hook-up.
