STATOTHR

Declass Review, NIMA/DoD

Enclosed is the requested technical data for tie-in of the plotter and computer. From a quick review it appears to be sufficiently detailed. However, if additional material is required, please feel free to contact me.

I have not been able to get the name of a technical contact man but will call you as soon as the information is available or bring it up on my next visit the beginning of November.

Sincerely,

STATOTHR

Enclosure: A/S
