Dear John:

I haven't been able to reach you of late so I'll drop you this note.

My reason for contacting you was to try to set a date to sit down for a quiet chat about your precision digital plotting requirements.

As we discussed, these requirements are quite separate from your high speed ones.  will be in Washington during the next week or two for one reason or another. Could we set a date to talk over specifications with you?

Let me know if this idea meets with your approval - hope to see you soon.

Very truly yours,

RWL:P
