Attention:

Subject: High Speed Precision Coordinatograph

STATOTHR

Dear Mr.

STATOTHR

is pleased to provide the attached proposal for a high speed, digital, precision coordinatograph. This equipment will meet or exceed all of your requirements, utilizing techniques that have been thoroughly proved in operation in existing systems.

STATOTHR

STATOTHR

As you know, has, during the past several years, pioneered the development of digital plotting and line drawing coordinatographs. Our electronic control systems and our mechanical equipment are accepted to be the most reliable among those currently available. We feel such reliability is of paramount importance in your application.

STATOTHR

Included in our proposal are examples of systems that are operating in plants through the U. S. on intermittent and multi-shift bases. We will be happy to provide you with the names of personnel responsible for this equipment. They can give you actual operating data.

Mr. [REDACTED]

- 2 -

We appreciate the opportunity to prepare this information for you. We will be contacting you within the next week to see if it would be desirable to get together to discuss the proposal in more detail.

Sincerely yours,

STATOTHR

[REDACTED]  
Vice President
