25X1

(3) [Redacted] letter of 18 August 1967 -
"Request for Overrun Funds"

Dear Sir:

25X1

In accordance with References (1) and (2) above,
[Redacted] is submitting herewith a request for
additional overrun funds under subject contract. This request for
overrun funds supersedes our request of 18 August 1967, Reference (3)
above. The increase in funds over that requested in Reference (3) is
due to the additional effort incurred in returning the unit to [Redacted]
and its disassembly for the purposes of studying the possibility of
making redesigns to eliminate the high intensity light source and to
add features to the design to reduce the noise level experienced
during operation.

25X1

Our request for additional funds is divided into several
categories to assure that all aspects of our request are understood,
and you have the option to select those which you desire, based on
available funding within your organization.

Enclosure (1), in the amount of [Redacted] shows actual costs
incurred to 26 November 1967, less the cost to transport the equipment
back from your facilities to our facility.

1 December 1967

Enclosure (2), in the amount of [Redacted] covers only the transportation costs for the unit to be returned to [Redacted] deducted from Enclosure (1), and, upon your approval, transported to your organization. These costs have been segregated in accordance with the third paragraph of Reference (1).

25X1
25X1

Enclosure (3), in the amount of [Redacted] covers our labor and material costs to reassemble and realign the unit and prepare it for shipment to your facility.

25X1

Enclosure (4), in the amount of [Redacted] covers the cost to complete the drawings and manuals and submit them in accordance with the terms of the basic contract.

25X1

Enclosure (5), in the amount of [Redacted], covers the service activities which you may require after the unit has been delivered to your facilities. Please note that in Enclosure (5) we are submitting these costs as an option and, rather than charge to the basic contract, are offering this separately as a service contract. Please note that we have estimated the service to include one man for two days and a second trip at a later date of one man for one day. The rates quoted are our standard service rates; they include costs for the specified visit and costs applicable to pre- and post-visit activity.

25X1

We feel the cost breakdown included in the five enclosures will provide you with sufficient flexibility to amend the contract to the extent you feel necessary to fulfill your total objectives. In accordance with Reference (2), we are not proceeding to reassemble the unit or take any further action until we have received word from your organization as to which combination of approaches you wish to follow.

If we can provide you with any additional information or answer any questions relating to subject matter, please do not hesitate to contact us.

Very truly yours,

[Redacted Signature]
