Gentlemen:

Enclosed please find five (5) copies of the Final Report on Phase I of subject contract.

As discussed briefly with your representatives during their recent visit, and assuming that contractual authorization to proceed with Phase II will be forthcoming, we feel that it will be to our mutual advantage to extend the completion date of Phase II to encompass the total calendar time span (six months) as contemplated at the start of the program.

An extension in the delivery schedule will obviate the necessity of entering into a "crash" manufacturing and testing program which is not the best way of approaching the manufacture of a prototype unit.

Please advise at your earliest opportunity your decision as to Phase II of subject contract.
