FROM:

Chief, OSS/IAD/GIA

ATTN:

SUBJ: Proposed Reticules for 13x Tube Magnifier

1. On the basis of our recent telecon we have reconsidered the desirability of a reticule with a .001' scale, and appreciate your suggestions in this regard. We have concluded that we would not like a .0002' scale but instead request that a proposal be obtained for a red .001' scale with .0005' indicators - of a shorter length - between the .001' marks. The scale should be marked with numerals only every 5th. .001' line - a la the 7x .001' reticule.

25X1

X1

2. We would also like a proposal on the .1 mm/angle reticule as discussed with

3. Request that you relay this info to and keep us informed. Thanks.
