MEMORANDUM FOR: Assistant for Plans and Development, NPIC

X1 SUBJECT : Modification of [] Zoom 70 Microstereoscopes

X1 1. The Photographic Analysis Group has recently received twenty
X1 [] Zoom 70 Microstereoscopes. These instruments were not
modified with the dovetail attachment. Inquiry of both []
X1 [] resulted in their stating that at present the
dovetail modification is not available on any of the Zoom 70 Microstereo-
scopes.

2. It is requested that the P&DS make arrangements to have these
microstereoscopes modified so that they may be used with the 2X Rhomboid
Attachment. It is understood that the 2X will be available sometime in
January 1967. IAD and possibly other center components have the Zoom 70
Microstereoscopes on requisition and would also be interested in modifica-
tion.
