STAT

By copy of this letter, we are forwarding three (3) additional
copies of the report to the Technical Representative.

In addition, we are also enclosing two copies of each of nine
(9) transparencies. The nine (9) transparencies include for
each of three scenes, an original and two prints produced on
our breadboard electronic processor, one with modulation and
one without modulation. During the program review in February,
we indicated we would furnish you this material.

If you should have any further questions on this report, kindly
let us know.

Very truly yours,

STAT
