Attention: Contracting Officer

Subject: Task Order No. 03(100,762)65R

Gentlemen:

 hereby requests approval to purchase items of equipment as follows:

One (1) Dichroic Mirror (10" X 10" X 1/8" thick)  Direct Cost Estimate. 

STAT

STAT

One (1) High-Voltage Regulated Power Supply  Direct Cost Estimate. Model NS 1602, 

STAT

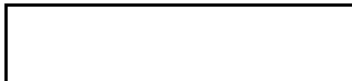

(The total break-even cost estimate of the above items would be )

In order to operate the high resolution breadboard electronic processing system the big dichroic mirror is needed to accommodate the large format of the  kinescopes (as opposed to the small format low resolution  kinescopes). The high-voltage regulated power supply is needed to supply the G2 electrode of the  tube. (The  kinescopes required relatively low voltages for this purpose). The high resolution system cannot function without these items.

The requested approval will not result in an increase to the allowable total cost of the contract.

Very truly yours,

Original Signed by
