MEMORANDUM FOR THE RECORD

SUBJECT: High Quality Office Copy Camera

After rejection of Objectives by Dino, I talked with [redacted] (DIA). Vern said Dino might be interested in a quick copy camera. On 10 January 1966, [redacted] Vern, Dino, Vince and myself sat in on a demonstration by [redacted]

25X1  
25X1

On 14 January 1966 I borrowed a 1:1 quick copy camera from [redacted] and also discussed a 3:1 reduction quick copy camera. On 17 January 1966 at CSD's request, I demonstrated the quick copy camera together with techniques for making multiple copies cheaply utilizing P/N polaroid packs and Fotorite paper and processor. Upon entering the room, Dino said he didn't want it. After the demonstration [redacted] said that the 3:1 reduction camera and the 1:1 copy camera would solve 95% of their need. Vince said that these would do until a device such as I wrote the development objectives for, could be developed and Dino said he wants a modified MP-3 and he had 20-30K to spend for it.
