[Redacted]

NPIC/P&DS-2 31-64

14 December 1964

MEMORANDUM FOR: Chief, Support Staff, NPIC

ATTENTION : Chief, Logistics Branch, SS

SUBJECT : Amendment of Contract [Redacted]

1. [Redacted] has developed an argon laser which lases in the blue green spectrum. This is the area in which most photographic films have their greatest sensitivity; therefore, this laser is of considerable interest to us as a potential light source for exposing photography.

2. P&DS is desirous of having [Redacted] make a personal contact with [Redacted] in order to fully investigate the potential of this recent development.

3. This company is located in [Redacted] and is outside of range of Contract [Redacted] as a consequence, it is requested that your office prepare a requisition to amend the subject contract with the [Redacted] to permit the desired investigation. Therefore, under the terms of Task 1, article II, you are requested to add [Redacted] to the "List of Firms".

4. This action is to cover [Redacted] travel at our request, to [Redacted]

Distribution:

- Orig & 1 - Addressee
