

7/16/69

For: C/PPBS

Subject: Maintenance for [ ] HPSC.

STAT

1. It is projected that annual costs for maintenance on the stereo comparator will be about [ ] this will cover expenses for [ ] to recruit & train three technicians who will take care of the HPSC machine.

STAT

STAT

2. We believe it would be more advantageous for HPSC to recruit & train people to do the maintenance. Two extra people, with proper talent, could do the job in house, saving only about 1/4 their time. (One bracket - they would need to fit their optical training at [ ]

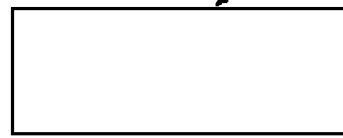

STAT

3. If we started now, or even by Sept. '69, we believe we would be prepared to take on this task. It is our desire to double-encumber current maint. slots in ESD to accomplish this.

4. This would obviously require FY/71 attention for addl. maint. slots to remove the double-slotting problem.

5. Comment ?
