File No. 50035

Status Report for Imagery Experimentation
Support for the Period of 15 May Through
30 June 1970

Work performed over this reporting period involved the collection of ground photography on targets at [Redacted] and the development of keys for individual target selection. Additional frames were also selected to provide for stereo viewing within the imagery simulation.

STAT

Two keys for selecting targets were made. Each key showed a side and forward or aft view of the target. There were a total of sixty targets. Besides the photography there was a short description of the target and the significant photo interpretation features on each. One key was forwarded to [Redacted]

STAT

STAT

One trip was made to [Redacted] to photograph the ground force vehicles.

STAT

Total costs expended through this reporting period were approximately [Redacted]. Cumulative total costs for the contract were [Redacted].
