

26 June 1968

[Redacted]

25X1

1. This project is a continuation of three consecutive R&D contracts, FY's 1966-67-68. It was determined by TSSG that this type of contract should be under the miscellaneous services category because of its special study and work-order type characteristics which are not really "research and development". Accordingly, in FY 1969, we provided plans to expend [Redacted] to extend the effort.

25X1

2. Major supporting activities during the past three years are as follows:

a. Monitoring the participation of IEG/PHD photogrammetrists in studying "The Mensuration of Photographic Images by Human Operators."

b. Collecting ground truth, assembling experimental imagery, and preparing target keys for "The Analysis of Missile Sites as a Function of Photographic Ground Resolution".

c. Monitoring the participation in the missile site study of IEG and IAS photo interpreters and DDS&T/FMSAC analysts.

d. Producing controlled resolution, simulated imagery for use as stimulus materials in "The Analysis of Radars as a Function of Photographic Ground Resolution".

e. Monitoring the participation in the radar study of IEG and IAS photo interpreters and DDS&T/OSI analysts.

3. Expenditures for past year have been:

FY 1966 [Redacted]
FY 1967 [Redacted]
FY 1968 [Redacted]
