Gentlemen:

There is attached an ACDA Request for a Proposal which has been sent to certain prospective contractors. From our earlier conversations it is understood that two of your contractors () also have the capability for performing this work. You have indicated that you are willing to have these organizations perform this work if they so desire. Following up on this, it will be appreciated if you will forward the enclosed material to the appropriate officials at () for their consideration and proposal for possible additional procurement under existing CIA contracts.

Since we must make award during this fiscal year we have established a relatively short date for receipt of the proposals. They are due by close of business on June 11, 1970. We, therefore, enlist your help in seeing to it that this material is forwarded expeditiously. A copy of any proposal they submit to you is to be sent by them directly to () at the address indicated in the attached material.

If after evaluation of all proposals, either () is selected, we understand that you are amenable to including the required work as a separate task amendment to one of your contracts with the successful proposer. In such event, a new reimbursable agreement or amendment to an existing reimbursable agreement will be issued to cover the transaction.
