Subject: Contract

Gentlemen:

As discussed, we have not received a reply to our letter of 22 April 1971 which refuted the rejection of subject contract Item 1b, the MLT-1540-4 Light Table. We respectfully request immediate disposition of this matter. As requested, we have deferred assembly of the remainder of the MLT 1540-4 units, but are rapidly approaching the end of the production run.

With regard to the additional features and capabilities which the MLT 1540-4 user feels he requires for tracking and mensuration, our representatives recently met and have a mutual understanding of the problems and requirements. A proposal for modifications and additions to the MLT 1540 to satisfy these requirements will be submitted at the earliest date practicable.

Kindly contact any of our company officers, or the undersigned if further information is required.

25X1

Very truly yours
