MEMORANDUM FOR: Chief, Technical Services Group, NPIC
THROUGH : Chief, Research & Engineering Division, TSG/NPIC
SUBJECT : Reorganization of [redacted]

25X

X1

1. [redacted] has been reorganized as outlined on the attached sheet. The reorganization became effective 22 January 1971.

2. The following significant changes should be noted:

X1

a. [redacted] program manager for the production 1540 Light Table procurement, has resigned because of job pressures.

X1

b. [redacted] staff engineer, will assume responsibility for the production of the 1540 tables. Beginning 25 January 1971, [redacted] will be our contact rather than [redacted]

25X

X1

c. [redacted] presently manager of the Administrative areas of [redacted] will become Chief Engineer. [redacted] has his degree in Electrical Engineering and is, according to [redacted] eminently qualified for his new position.

25X
25X

X1

d. [redacted] presently manager of the Rosslyn office of [redacted] has been offered the position vacated by [redacted] hasn't as yet made a decision to accept.

25X

X1

e. The present Rosslyn office will remain, although the administrative structure of that office is undecided.

X1

3. The impact of this reorganization on the production of the 1540 light tables is unknown. However, it is not expected to make any great apparent difference. Most problems have been resolved, and those remaining will probably be the responsibility of [redacted] appears to be a more decisive individual than [redacted] and gives every indication of being entirely capable of stepping in and carrying on the program.
