2. The following items were reported by [redacted]

25X1

a. The main things important to the stereo comparator optical system are OK. The optical components look good; only minor optical rework is required.

b. The interfacing (wiring, drives, etc.) are being straightened out without any major difficulty.

c. [redacted] expects to have each item tested and in the system by the end of February.

d. The end of February looks like a good date for [redacted] to start acceptance tests on the optical system at [redacted]

25X1

e. [redacted] has spent time during this monitor trip in setting up test procedures with [redacted]

f. [redacted] and probably [redacted] will return to [redacted] early in January to work up the test plan and procedures for the acceptance tests. This may take about two weeks to accomplish.

25X1
25X1

g. [redacted] will leave [redacted] on 18 December and be at [redacted] on 19 December.

25X1
25X1

3. The project monitor will be in telephone contact with [redacted] on 22 December to get a summary report on the [redacted] trip.

25X1
25X1

4. [redacted] also stated that [redacted] have been working with [redacted] on an acceptance test for the correlation (image analysis) system. The main hangup is the correspondence test. [redacted] feels that the test recommended by [redacted] to check cross talk correspondence is unsatisfactory. [redacted] is trying to come up with a better test.
