MEMORANDUM FOR: Air Force Intelligence Center,
Arlington Hall

ATTENTION: Lt. Col. Harold B. Lawson, AFIC
Liaison Officer to CIA/PIC

SUBJECT: P.I. Keys for Africa

1. It has been suggested that P.I. area keys for Africa south of the Sahara would be desirable as research tools in anticipation of international crises which may be expected to occur over the next several years.

2. The purpose of this note is exploratory to inquire (a) whether such an effort would be of interest and use to the Air Force, (b) whether your organization might be interested in jointly supporting an external contract for P.I. Keys on Africa, particularly south of the Sahara, and (c) if you would provide us with a list of major areas of interest by priority for use if a program were developed.
