MEMORANDUM FOR: Executive Director , NPIC
Chief, PPBS
Acting Chief, RAD/PPBS

SUBJECT: Clarification of the Record

REFERENCE: PI Keys Memorandum, RAD/PPBS, dated 16 February 1970

1. As a matter of record, PSG wishes to clarify its position relative to PI Key production scheduling. As stated in para. five of referenced memo, "PSG currently plans to start work on the China keys in August....".

2. Currently, PSG does not have any plans or commitments to commence PI Key production in August. PSG speculated, when queried by PPBS, that it wouldn't even be able to consider additional inputs of the magnitude proposed by the PI Keys program until at least August, and possibly not then.
