

MEMORANDUM FOR: JHH For Review

John:

[redacted] dropped off the attached memo which he proposes sending to NSA. This is a continuation of the work that is being done to hook up NPIC with the NSA computer.

As far as I can tell this is merely implementing an already agreed-upon arrangement. I see no difficulties with it. Suggest you give Steve the green light to go ahead and make the arrangement. I see no need for him to continue referring these to the Front Office as long as they don't involve expenditure of NPIC funds or a change in the basic agreement.
