25X1

19. Meeting with [ ]

    This afternoon at 4:00 JJH had his second weekly meeting with [ ] 25X1
to discuss mutual NPIC-IAS problems. Included in the discussions were:

    a. Special Middle East Coverage - The special Middle East coverage
that OSA made of Mersa Matru on M-260-A was discussed. [ ] related   25X1

25X1
25X1
that he had called [ ] to tell him that the film that IAS had received
was unmarked. [ ] is proposing to have the CIA member of COMIREX write
to the Chairman of COMIREX stating that a new capability has been developed
to collect photography along the northern coastline of Egypt and invite
requirements from the intelligence community for collection against targets
in this area. This new program is proposed to be called [ ] If   25X1
requirements are generated by other intelligence community members, the film
can be released to them under this code name.

    b. Budget Hearing - Plans for the budget hearing with OMB and OPPB
officials tomorrow were discussed. Stoertz was invited and is attending the
NPIC portion of the presentation.

25X1
25X1
    c. Overtime - JJH informed [ ] that NPIC no longer will be working
the readout of Old Head [ ] missions on an overtime basis.

    d. Five Year Planning - JJH gave a copy of the PPBS instructions to
the Group & Staff Chiefs setting forth the assumptions of the planning
data for the preparation of the Five Year Plan. [ ] in return, said   25X1
that they plan to dust off their EOI/NRT paper which they will provide us
as possible useful background information, as to how IAS sees the EOI era.

25X1
    e. MIS [ ] expressed concern about the accuracy of data derived
from the MIS system, postulating that if the computer is error prone he
has concerns about the accuracy of information from the IIS. JJH told him
that he didn't think he saw any correlation between the two problems.

25X1
    f. DIA Area Coverage File - [ ] asked whether or not we were
pressing DIA for development of their area coverage file. He said that
he thought we could probably make good use of the file here in the Center.
