Memorandum

TO : ACL

FROM : PNS

SUBJECT:

Declass Review by NIMA/DOD

Am now prepared to talk to him, but haven't so far -- First had to talk to -- Results -- From Carl: Ollie was asked about two months ago if he wouldn't voluntarily retire to help with the budget/personnel cuts in DIA & make room for younger ones coming along --- He refused -- According to Carl the DIA can't force anyone to retire until they are 70 --

is checking on this -- Both Carl and John agree that NPIC (you &/or CIA) can't voluntarily support Ollie because of CIA's own policies on early retirement which caused the loss of such individuals as --- Hence this the line I will have to take with Ollie --

Carl thinks it might also be to "take you up" on something you were supposed to take him on as a consultant -- The same reasoning & current budget would preclude that -

SUBJECT: Rotational Assignment

4. Will you please review their files and let us know if any of them might fit your needs. We will not discuss possibilities of a rotational assignment with them pending an expression of interest from you. I will be glad to broach the subject with any you might like to interview and arrange appointments for you.

[Redacted]

Director
Office of Scientific Intelligence
Room 6F20 - Headquarters

Dear Don:

Thank you very much for taking the time to brief our key people on the inner workings of OSI. The session was worthwhile.

I was sorry to hear that [Redacted] is leaving the Agency. We would like to continue the precedence established by his assignment over there by considering the selection of another NPIC officer for a rotational tour in OSI. We are getting a little short on nuclear PI specialists, but perhaps you will consider another kind for one of your other divisions. If you have no objections, I suggest that [Redacted] explore this with whomever you designate.

Thanks again for the briefing and we look forward to providing continued close support.

Sincerely,

[Redacted Signature]

Executive Director
