DIRECTOR: WHITE HOUSE SITUATION ROOM

SUBJECT: SOUTH VIETNAM: The military situation

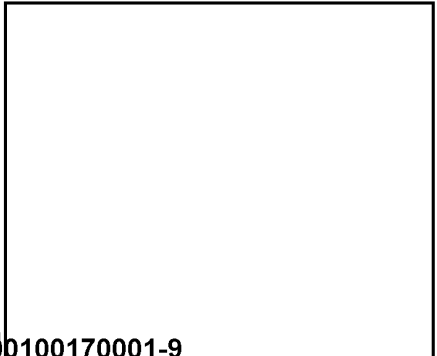

25

The level of communist-initiated military action throughout the northern provinces remained fairly high over the past few days. In addition to numerous shellings of government field positions, Phu Bai Airfield, which services Hue, was bombarded twice in three days. The airfield is temporarily closed to civilian traffic. Government troops are still encountering strong Communist resistance in their efforts to recover Firebase 82 near Bencat north of Saigon.
