- 00.4566 Monthly contribution to "Overall Effects...Airstrikes in NVN".
- 15.4791 "The Present Functioning and Mobilization Potential of the North Vietnamese Economy"; due 30 June 1966.

This project will describe the functioning of the economy with the view of determining more specifically (1) the degree to which the economy now directly supports the war effort, (2) the potential of the economy for expansion of such direct support, and (3) the degree to which the operations of the economy are dependent upon foreign inputs.

3. The question of projects which need doing on this subject cannot be determined at this point. Further delineation of the terms of reference of the project breached at your meeting this morning will make this problem easier. As regards the data problem, we have no knowledge of sources or resources which might be useful to us but which are not currently available.
